Overview

The GC35S-9 and GC55C-9 forklifts give you the diversity needed to get the job done. These 8,000 to 12,000-pound capacity trucks are true all-around players, providing peak performance in any application.

- Each point of these trucks takes operator comfort to the next level.
- Operational enhancements provide more benefits than any other truck in their class.
- Productivity features include special application packages and BCS configurations.
- Simple service and a lower total cost of ownership make these trucks the natural choice for value and reliability.
